Art. 4 - Appointment of the Examining Commission and the Head of the Procedure.

The Examining Commission will be appointed by the Rector, through a Rectoral decree, following the proposal by the Faculty Council. During the exam, the Commission will be supported by teaching and

In accordance with Law n. 241 of 7th August 1990 and subsequent amendments, the above-mentioned staff will be selected from the Heads of the Student Secretariats - Medical Area of the Faculty of Medicine and Surgery.

Art. 5 - Methods and venues for the test

On **1st September 2018**, the addresses of exam centres will be published on the MIUR and the University websites, together with the number of the classroom where the test will take place.

The test will take place **on 13th September 2018** in the various locations indicated in "TABLE A", which is attached to the present call.

Candidates, in cases where more than one classroom must be used, will be distributed according to age, except for twins.

Candidates will only be able to take the test in the classroom that has been assigned to them.

In order to facilitate the Commission in the identification of candidates, students must arrive **at least two hours before the start of the test** and must bring:

- a valid personal document;
- a receipt demonstrating the online registration on www.universitaly.it;
- a receipt of payment.

Non European Union applicants, besides the above-mentioned documentation, must provide:

- their passport
- a copy of their permission of stay document
- a copy of their pre-registration application submitted to their embassy regarding their visa application.

On the day of the exam, before the beginning of the test, the Chairperson of the Commission or the Head of the Classrooms at the Italian and Foreign Universities will randomly choose four candidates present in the classroom, and together they will verify the integrity of the boxes. They will then oversee the opening of these boxes and the distribution of the envelopes in relation to the number of participants in the room. They will provide each candidate with an "instruction sheet regarding the compilation of the answer sheet", which will be given to the candidates before the start of the test. They will also make a declaration confirming the integrity of the boxes, the number of envelopes assigned and the number of envelopes that have not been used. This declaration will also be undersigned by the four selected students.

The **exam** must be completed in **100 minutes**.

The exam procedure

Each candidate, following identification procedures, will be provided with a CAMBRIDGE ASSESSMENT envelope containing:

- a) a personal data form with no identification code;
- b) questions relating to the admission test, bearing the identification code of the envelope;
- c) an answer sheet, containing the same code as the envelope;
- d) a sheet on which the envelope identification code is provided, together with the name of the university and the degree course for which the test has been organized.

The substitution, should it be necessary during the exam, of one of the documents referred to in points (b) and (c) means that the entire envelope must be replaced given that all such documents within the envelope are marked with the same code. Should any corrections or markings be carried out by candidates on the personal data sheet, it does not need to be replaced. The personal data sheet will only be substituted where there is difficulty in identifying the candidate. In such cases, the Commission will substitute the personal data sheet by taking another one from an unused envelope, a fact that will be reported in the classroom minutes. Replacing the personal data sheet does not in any way mean replacing the entire envelope.

The candidate, while doing the test:

- *must use only the black pen provided by the university or the foreign centre;*
- must not interact with other candidates during the test;
- must not bring with them or use cell phones, palmtops, smartphones, smartwatches, or other similar instruments, or bring or use pens, pencils or stationary (or any other form of writing device), not to mention manuals, textbooks, manuscripts, blank sheets and reference materials into the classroom;
- must complete the personal data form and sign it together with a statement declaring that the personal data provided is correct. These must be compiled only **on termination of the exam**;
- must indicate their answer by putting **an X** in the corresponding box. Candidates can correct an answer once only, taking care to completely blacken the box previously marked with **an X** and then choosing another. Only **one X** must remain in the five Boxes for the candidate to be given the point;
- must tick the circle corresponding to the question number in cases where candidates prefer not to answer. This option, once chosen, can no longer be modified. If the candidate does give any form of answer in the answer boxes or the circle, the answer will be considered “not given”;

At the end of the test, the candidate:

will be asked to go to a site where they will find a pen and which is at a suitable distance from the Commission. Here they will choose a pair of adhesive labels. Candidates must then stick each label to the answer sheet and the candidate's personal data form, and must check that the codes on the labels are the same. The candidate must then sign the personal data form, and their declaration regarding the authenticity of their personal data and the correspondence of the codes of the labels stuck on the personal data form and the answer sheet.

Upon completion of the operations, the candidate must put their personal data form into the sealed container at a location dedicated for this purpose and go to the position of the Commission where the answer sheet must be inserted within the closed container provided.

The test can be CANCELLED by the Examination Board if:

- 1) the performance of the test takes place in a classroom other than the one in which the candidate has been allocated, unless this change has been authorized by the examination board and has also been recorded in the minutes;
- 2) mobile phones, palmtops, smartwatches, smartphones or other similar instruments, as well as manuals, textbooks, manuscript notes and reference materials have been introduced into the classroom;
- 3) the answer sheet (on the front or back) is found to have been signed or marked by the candidate or by a member of the Commission;
- 4) there is any interaction between candidates or attempts at copying, or exchanges of any material, including personal data and/or answer sheets

The Commission will annul the exam in the cases highlighted in points 1), 2) and 3) and the score of the annulled exam will be considered invalid.

In the Italian exam centres, when the answer sheets are handed in, the President of the Commission or the Head of the Classroom, must retain, in the presence of each candidate, so that they can be conserved by the University and for the final ranking list and for any possible future request for access to documents, the following material:

1. the sheets on which the test questions are printed;
2. the personal data forms;
3. the check sheet for the envelope.

This material must be stored by the University for five years after the test has taken place.

In the foreign exam centres, the classroom minutes compiled by the President of the Commission or by the Head of the Classroom together with the above-mentioned documents must be sent to the universities concerned so that they may be kept at the university headquarters.

At the end of the test, carried out both in the Italian and foreign centres, the President of the Commission or the Head of Classrooms will also:

- a) insert all the answer sheets inside one or more containers that must be sealed in the presence of the candidates that had been selected to verify the integrity of the boxes or, in the presence of four other randomly chosen candidates;
- b) insert all the personal data forms inside one or more containers that must be sealed in the presence of the candidates that had been selected to verify the integrity of the boxes or, in the presence of four other randomly chosen candidates;
- c) sign the closure flaps of the container or containers;
- d) invite the four candidates to sign the closure flaps as well;
- e) prepare other containers which will be used to enclose: substituted envelopes, the envelopes from which the personal data forms were taken in cases of substitution together with unused envelopes; and the declaration in accordance with art. 5 and the copy of the classroom minutes including the list of candidates.

Art. 6 – Topics covered in the exam and Evaluation Criteria

The entrance test consists of **sixty (60)** questions and there are five alternatives for each answer. The candidate must select only one, excluding the wrong, arbitrary or less probable alternatives. The questions will be about general culture and logical reasoning; biology; chemistry; physics and mathematics.

Based on the programs listed in **Annex A**, which is an integral part of this call, there will be two (2) general knowledge questions; twenty (20) logical reasoning questions, eighteen (18) biology questions, twelve (12) chemistry questions, and eight (8) physics and mathematics questions.

With regard to the number of places available for registration and subsequent participation in the one cycle degree courses, candidates considered eligible include European Union and non European Union members in accordance with Article 26 of Law No.189 / 2002, together with, considering the number of places available, non European Union students residing abroad, who have been included in the ranking list in accordance with **art. 8** of this call. Candidates belonging to all the aforementioned categories are eligible for admission to the undergraduate course, on condition they obtain a minimum score of **twenty (20) points** in the entrance test. Unsuccessful candidates are not included in the ranking list. **In accordance with the Community guidelines regarding access to foreign students to university education and in line with the cultural foreign policy requirements of art. 46 of Presidential Decree n. 394/1999, with regard to the number of places available for non European Union applicants resident abroad, the minimum eligibility threshold is not applicable.** Non EU candidates that reside abroad are considered eligible only if they have obtained a score above zero. Non EU candidates who reside abroad that have failed to answer any of the questions will not be included in the ranking list.

For the evaluation of the test, a maximum of **90 points** shall be awarded taking into account the following criteria:

- **1.5 points** for each correct answer;
- Subtraction of **0.4 (-0.4) points** for each wrong answer;
- **0 points** for each omitted answer.

The Cineca, on the basis of the score obtained by each candidate and calculated according to the Cambridge Assessment, draws up a single national ranking list for European Union and Non European Union candidates in accordance with Article 26 of Law No.189/2002 and in accordance with the procedures set out in **art. 8**. The ranking list for foreign citizens residing abroad is defined by the University.

Should scores be equal, the following criteria are applied:

A) The candidate's score in the questions of logical reasoning, general culture, biology, chemistry, physics and mathematics is considered in descending order;

B) possession of linguistic certification referred to in **Annex 3** by the date of closure of the enrolment, and declared by the candidate in their entrance test application. The possession of language certification required for candidates participating in the present call is self-certified and in accordance with art. 46 of D.P.R. n. 445/2000. The Administrations involved in this procedure can, at any stage of the procedure, reserve the right to ascertain the veracity of the declaration made by the applicant, in accordance with

the relevant laws in force. Candidates must therefore provide all the necessary information to enable verification should they be requested. Should the documentation submitted by the candidate be found to be false or misleading, regardless of the penalties laid out in the Criminal Code and relevant special laws (Articles 75 and 76 of Presidential Decree 445/2000) and the payment of damages to the affected parties, the registration of the candidate will be cancelled, any benefits granted will be recuperated and any taxes and university fees paid will be withheld.

C) In cases where the equal scores remain, the younger candidate is elected.

Except as required by the provisions of the **Art. 8**, the closing of the ranking list will be organized by a ministerial order to be issued in the second academic semester, so that students can meet the minimum attendance requirements in order to be able to take exams. Once the ranking lists have been closed, all eligible candidates that have confirmed their interest in enrolment will be assigned and will have to register within the time limit set out in this call. Those who, once the registration deadline has gone by, have not registered in the degree program they have been assigned to, will lose any right to register in subsequent years. Eligibility refers only to the selection procedure currently in progress: no right is granted regarding access to master degree courses in years following the one in which the test was sustained.

Art. 7 – Compilation of the ranking list

At CINECA, the responsible office of the MIUR will authorize CAMBRIDGE ASSESSMENT, subject to compliance with the procedures set forth in this call, the computerized checking of answers provided by candidates in the test and the following automatic determination of the relevant score. CAMBRIDGE ASSESSMENT determines the score of each candidate and transmits the results to CINECA through a site specifically designed for this purpose.

The MIUR, through the CINECA, will publish on the **www.universitaly.it** site in compliance with the rules regarding the protection of personal data scores following the order of the coded envelopes used in the exam. This data will remain available on the reserved site until the completion of the procedures.

Art. 8 - Publication of ranking lists and fulfilment for successful candidates

The score is determined by the Cambridge Assessment according to the terms of art. 6 of this call, and CINECA, on behalf of the MIUR, on **27th September 2018** only publishes the score obtained by the candidates according to the label code on **www.universitaly.it** in compliance with the rules for the protection of personal data. This data remains available in the area reserved for the candidates until the completion of the procedures.

1. From the day following the date of publication of the test results and within five working days, the university administrators will send CINECA, through a confidential web site made for them by the same consortium and which will constitute the only means of communication, the personal data of each candidate contained on the personal data form and a scan of each single personal data form in pdf format. Regarding these procedures, a verbal analytical report will be compiled which the University must make available to the MIUR on the confidential web site.

2. On **4th October 2018**, on the reserved page of the UNIVERSITALY portal, candidates can see their test, score and their personal data form.

3. On **10th October 2018**, in the part of the University portal area reserved for the candidates, the national ranking list will be published.

4. The candidate, who following the displacement of each ranking list:

A) has been included in the list of places regarding their first choice, will be **ASSIGNED** a place and will be required to register at the university and for the course to which the candidate has been **ASSIGNED** within the time limits set out in art. 9. Should these terms not be complied with, the candidate will lose the right to be enrolled. No form or attempt at justification will be taken into consideration;

B) has not been included in the list of places regarding their first choice, will find another place that has been **BOOKED** regarding a second choice. Should this happen, the candidate can still register at the first choice university course in accordance with the terms laid out in art. 9 of this call, and can wait until the candidates that precede them in the ranking lists have registered, and following the subsequent displacement of the ranking list, can register if at this point, there are places that have become available. Once candidates that have been **BOOKED** a place register at this university, all their other preferences will be automatically cancelled.

5. On **10th October 2018**, in relation to the ranking list and the number of places available at the Universities, the names of the candidates who have been **ASSIGNED** on or **BOOKED** for the course in their first choice of university will be published. A list of these candidates will be supplied to each university.

6. The ranking list and the displacement of the ranking list will be organized according to the following regulations and times:

a) On **10th October 2018**, the ranking list will be published on the reserved site with the name of each candidate, their score obtained, and their position in the ranking list for the university they have been "assigned" to or taking into account the ranking position of all the candidates who preceded them in the list and of their preferences if "booked" or "waiting";

b) "**ASSIGNED**" candidates must enrol at the University in question according to the administrative procedures specified in art. 9 of this call.

BOOKED candidates can enrol at the University according to the administrative procedures specified in art. 9 of this call.

In order to guarantee the correct management of the national ranking list, it has however been established that, for both **ASSIGNED** and **BOOKED candidates that exercise this right with reference to the specific displacement mechanism, there will be a maximum of 4 (four) days for registration**, including the day on which the list has been displaced and Saturdays and holidays.

Should **ASSIGNED** candidates fail to register within four days, their candidature will be discarded. **BOOKED** candidates who do not exercise this possibility will not be excluded from the list.

c) Within **5 days** of the term referred to in point (a), and by 12.00 noon on the fifth day following each displacement, the day of displacement included and excluding Saturdays and holidays, each University, through its own specific website, will provide the CINECA with the names of registered students.

d) Within 5 days of the term referred to in point (a), and by 12.00 noon on the fifth day following each displacement, the day of displacement included and excluding Saturdays and holidays, **all candidates, apart from those already registered and those that have pulled out, must confirm their interest in**

registering in the reserved area on the University site. By failing to confirm, candidates will be removed from the national ranking list and will no longer have any right to be enrolled. No form or attempt at justification will be taken into consideration in these cases.

(e) On **17th October 2018**, the CINECA, having received the communication referred to in point **c)**, will, in relation to the position in the ranking list and the preferences expressed, publish the new displaced ranking list following the procedures set out in **b)**, **c)** and **d)**.

f) All other displacements will follow the same procedures and times laid out in **b)**, **c)** and **d)**.

7. The Universities will be allowed to enrol candidates who are placed in an eligible ranking position in academic years other than year one only when candidates' academic qualifications and exams have been officially verified and after having checked the official availability of places for the academic year in question in relation with the number of places assigned to their corresponding quota of students in previous programming. These procedures, together with the withdrawals following enrolment, will lead to the "displacement" of the ranking list in favour of the students who are not registered but who are in a good position in the ranking, but only while there are still places available on the course of the University. Any further requests of transfer or withdrawal successive to the filling of places in the courses will not result in any new displacement in the rankings.

8. Entries for any academic year other than year one, following the official verification of academic credits by the University, can only take place taking into consideration the number of places available following withdrawals and transfers during the year in question and in relation with the number of places defined in the annual programming decrees. **For the purposes referred to in paragraphs 7 and 8, it is not necessary to pass the test in cases where students are already enrolled in the same degree courses at one of the other Italian university courses, irrespective of whether they are European Union or Non European Union citizens.**

For the 2018/2019 academic year:

for the one cycle degree courses in Medicine and Surgery in English, the following places are available for academic years following year one:

DEGREE COURSE	YEAR OF COURSE	N. PLACES AVAILABLE

The places available in the Table above are reserved for those who have passed the entrance test, and which have previous academic qualifications and exam results that have been officially authenticated, and in accordance with art. 3 of the "Regulations for the transfer of students enrolled at Italian or foreign Universities". In these cases, students will be provided with a place on year 5 or 6 of the degree course. In cases where the number of successful candidates exceeds the number of places available (as can be seen in the table), the evaluation criteria set out in art. 5 of the aforementioned Regulations of the University issued by Decree of the President of the Republic n. 1772 of June 16th, 2015 will be taken into consideration. At the end of the selection procedure, should there be any available places remaining, the provisions of the Transfer Regulations published on the University site will be followed.
