The pedagogical project focuses on Transnational Litigation and Private International Law, combining online lectures, case-based learning and a Moot Court simulation.

Students will analyse a transnational legal case involving jurisdiction, applicable law, and recognition and enforcement of judgments under EU Regulations and international conventions.

The programme aims to develop students' legal reasoning, research, advocacy, teamwork and oral pleading skills through the preparation of written memoranda and participation in oral hearings conducted in English.

D. Online activities

The virtual activities consist of online lectures and teamwork activities delivered via MS Teams. Online lectures will take place from 21 January to 31 March 2026 and will cover key topics of Private International Law, EU Regulations (Brussels I bis, Rome I and Rome II) and international conventions. During the virtual phase, students will also work in teams to analyse the assigned case and prepare the written memoranda for the Moot Court.

E. Onsite activities

The on-site activities will take place at Universidad Francisco de Vitoria, Madrid (Spain) from 13 to 17 April 2026.

During the physical mobility, students will participate in oral hearings of the Moot Court, simulating proceedings before international tribunals, and will present arguments both for the claimant and the respondent.
